

GM	Description
FECA03	LV cables insulated with elastomers up to 1kV
FECA12	MV cables insulated with elastomers maximum voltage Um 36 kV
FECN04	Bare electrical conductors made of aluminium-steel for HV lines and copper cable for HV and /or MV lines
FEER03	Photovoltaics Modules for terrestrial applications
FEI05	Lighting materials and accessories
FEI09	Equipment for street lighting
FEIN17	Vacuum MV switches
FEQE06	Prefabricated metal enclosed equipment for interruption, disconnection and operation of the medium voltage network
FEQE28	Solar inverters and accessories
FERP03	Protection and control panels
FERV02	Supply- technical assistance service related to electric vehicle charging stations and mounted installations
FETR05	hv/mv transformers for primary sub-stations and for generation plant (hv/mv and mv/mv) rated power max 300mva /220kv
FETR15	MV/LV transformers and autotransformers in oil
FMGE13	Flood gates and control systems
FMTR01	Rotating hydraulic machinery for hydroelectric plants (turbines, reversible turbines and pumps)
FPHM01	Major Home Appliance
FPHM02	Smart Home Products and Services
FSCR06	Integrated metering units (ELECTRONIC METERS), low voltage data concentrators an post-meter apparatus.
FTTE05	Equipment for secondary cabin remote control
LCCC05	Industrial buildings - construction and renovation
LCCC12	Civil works for electric plants
LCCC18	Streets, bridges and viaducts - construction and renovation
LCCC21	Civil works equipment for wind power generation
LEIH01	Electric vehicle recharge stands - works
LEIH06	Construction of PV plants
LEIH09	Electrical installation
LEIH10	Massive Replacement of electronic and electromechanic meters. Works under Low Voltage.
LEIH15	PV plant installation (BOP) & maintenance
LEIL08	Works for public and artistic lighting
LELE05	Works on MV/LV plants
LESC01	Complete primary cabins (civil and electrical works)
LESC02	Electrical stations - electrical and electromechanical installations
LIOP02	Dams, Tunnels, Channels- Maintenance
LMGE10	Mechanical installation of pipelines and equipment for thermoelectric plants
LMIS03	Thermal insulation and refractory coverings
MERV01	Maintenance on stands for electric vehicle recharging
MMIM01	Not-specialised mechanical maintenance
MMIM22	Maintenance service for components for geothermal power plants and for drilling installations
MMPI02	Industrial cleaning and washing
SLPI06	Green area maintenance in industrial environment
SLTR28	Transportation and handling of goods/materials and portorage
SPCL03	Service installation of energy efficient products and technical services for energy efficiency
SPPT01	Physical and chemical analysis
SRTS18	Transportation and disposal of ashes
SRTS21	Transportation and disposal of special non-hazardous wastes

Scouting Families

GM	Description
LELE05	Works on MV/LV plants
LCCC21	Civil works equipment for wind power generation
LCCC12	Civil works for electric plants
LEIH06	Construction of PV plants
FMIT08	Heating, Ventilation and Air Conditioning systems (HVAC) for industrial premises.
SPCL03	Service installation of energy efficient products and technical services for energy efficiency
LEIH15	PV plant installation (BOP) & maintenance
FOM005	Office furniture and furnishings
MCMO08	Ordinary maintenance services for civil buildings
SPED02	Cloud Services related to IaaS PaaS e SaaS
SPPI05	Cyber Security.
