Important Legal Information

This presentation does not constitute an offer to sell any securities and is not soliciting an offer to buy any securities in any jurisdiction.

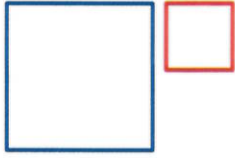

This presentation contains certain "forward-looking statements" regarding anticipated financial and operating results and statistics and other future events relating to Enersis S.A. These statements are not guarantees of future performance and are subject to material risks, uncertainties, changes and other factors which may be beyond Enersis's control or may be difficult to predict. These statements may constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995. The inclusion of these forward-looking statements should not be regarded as an indication that Enersis or any other person considers such projections to be material or to be a reliable prediction of actual future results. These forward-looking statements are subjective in many respects and there can be no assurance that they will be realized or that actual results will not be significantly higher or lower than described. As a result, the inclusion of any forward-looking statements in this presentation should not be relied on as necessarily predictive of actual future events. The projections and other forward-looking statements were based on numerous variables and assumptions that are inherently uncertain. Actual results may differ materially from those projected as a result of such risks and uncertainties. In addition, the financial projections do not necessarily reflect revised prospects, changes in general business or economic conditions, or any other transaction or event that has occurred or that may occur and that was not anticipated at the time the projections were prepared.

Forward looking statements include, but are not limited to, information regarding: Enersis' business plans, Enersis' cost reduction plans, trends affecting Enersis' financial condition or results of operations including market trends in the electricity sector in Chile or elsewhere, supervision and regulation of the electricity sector in Chile or elsewhere, and the future effect of any changes in the laws and regulations applicable to Enersis' or its affiliates.

The principal assumptions underlying these forecasts and targets relate to: Economic and Industry Conditions, Commercial Factors, Political/Governmental Factors, Operating Factors, and Competitive Factors.

The following important factors, in addition to those discussed elsewhere in this presentation, could cause actual financial and operating results and statistics to differ materially from those expressed in our forward-looking statements, including but not limited to: changes or developments regarding the applicable regulations (which may affect the investment plan of Enersis regarding the regulated activities), legal restrictions applicable to the implementation of the dividends policy, environmental regulations and other legal issues; price of electricity; price and supply of raw materials; interest rates or exchange rates; availability of fuel; ability to maintain relationship with suppliers, customers and consumer and user protection groups; changes in climate conditions; widespread adoption energy efficiency measures; inherent risks in the construction of new power generation and distribution facilities; changes in general economic, political, administrative and business conditions; operating hazards and risks; tax risks; loss of senior management and key personnel; insufficiency of insurance coverage or increase of insurance costs; failure of systems and information technology and processing; inability to access the capital markets to refinance its debt and finance its capital expenditures; and other factors that could adversely affect the business and financial results of the Company

No assurance can be given that the forward-looking statements in this document will be realized. Readers are cautioned not to place undue reliance on those forward-looking statements, which speak only as of the date of this presentation. Our independent registered public accounting firm has not audited, examined or compiled the forward-looking statements and, accordingly, does not provide any assurance with respect to such statements. Neither Enersis nor any of its affiliates intends, nor undertakes any obligation, to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Process overview

Closing remarks

Reorganization highlights and rationale

Energis is the leading power company in Latam

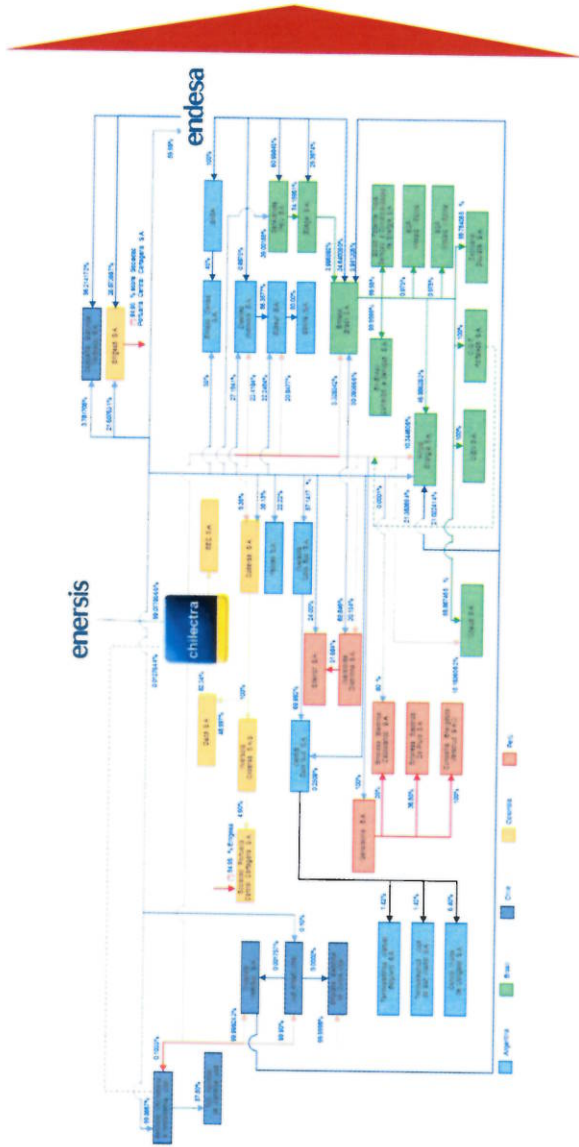

Note:
FY 2014 figures using yearly average FX rate of 570.4 Ch\$/US\$

Reorganization highlights and rationale

Energis complex corporate structure needs to be improved

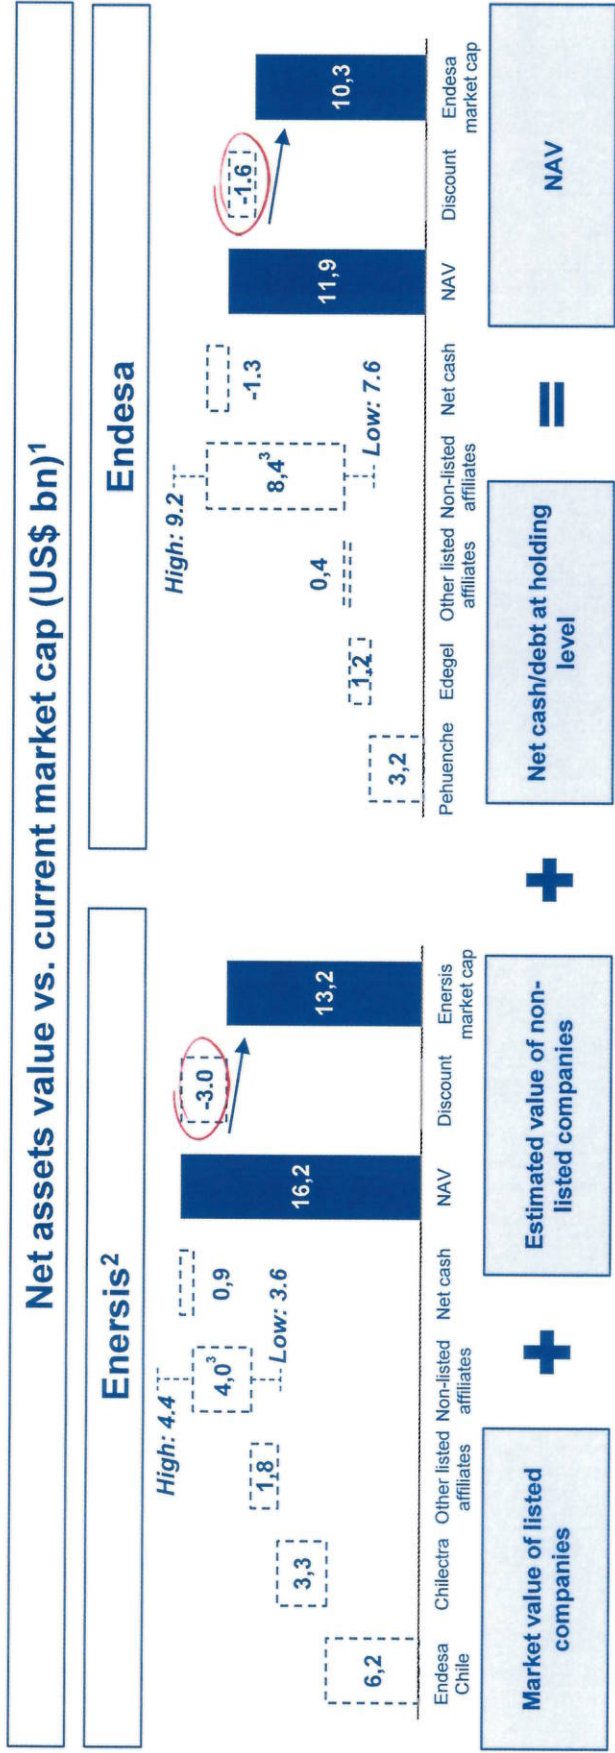

- More efficient decision making process and leaner cost structure**
- Key actions**
- ✓ Simplify corporate structure
 - ✓ Align strategic interests
 - ✓ Set a new industrial strategy and management focus

A change in the corporate structure is required to implement an effective strategy in the current challenging environment

Reorganization highlights and rationale

Complex corporate structure results in undervaluation

Based on market values and financial advisors valuations, Enersis and Endesa are trading at a ~US\$3.0 and US\$1.6 bn discount to NAV

Note:
 1. Market values as of November 3rd, 2015
 2. Values adjusted by Enersis' ownership stake with out considering participations through Endesa or Chilectra

3. Based on brokers valuation

Reorganization highlights and rationale

The proposed reorganization will generate value for all shareholders

Reorganization highlights and rationale

1 Tailored approaches: distinctive industrial opportunities

Enersis Chile

- Market approaching maturity
- Steady growth in energy demand
- Long term energy contracts indexed to US\$
- Difficulties in developing sizeable projects (environmental and social concerns)

Generation

Enersis Americas

- Developing markets
- Significant growth potential in energy demand
- Higher local currency exposure and shorter period of contracts
- Wider range of greenfield projects

Distribution & retail

- Stable regulation (+30 yr history)
- Consolidated infrastructure with low level of technical losses
- Potential for growth given higher receptivity to value-added services

- Regulatory framework experiencing more frequent changes
- Infrastructure update needs with significant level of technical losses
- Clients are receptive to more basic services

Stable cash flow, selective investments and structure cost-base control

Growth opportunities (organic and M&A) and efficiencies

Reorganization highlights and rationale

1 Tailored approaches: pure Chilean integrated player

Generation business

- #1 Installed capacity of 6,351 MW – 32% market share
- #1 11,512 GWh of hydroelectric generation – 17% market share
- 27 power plants across SIC (central) and SING (northern) networks
- 21,156 GWh/year generated energy
- Short term upside potential from Bocamina II restart and normalization of hydrology

Distribution business

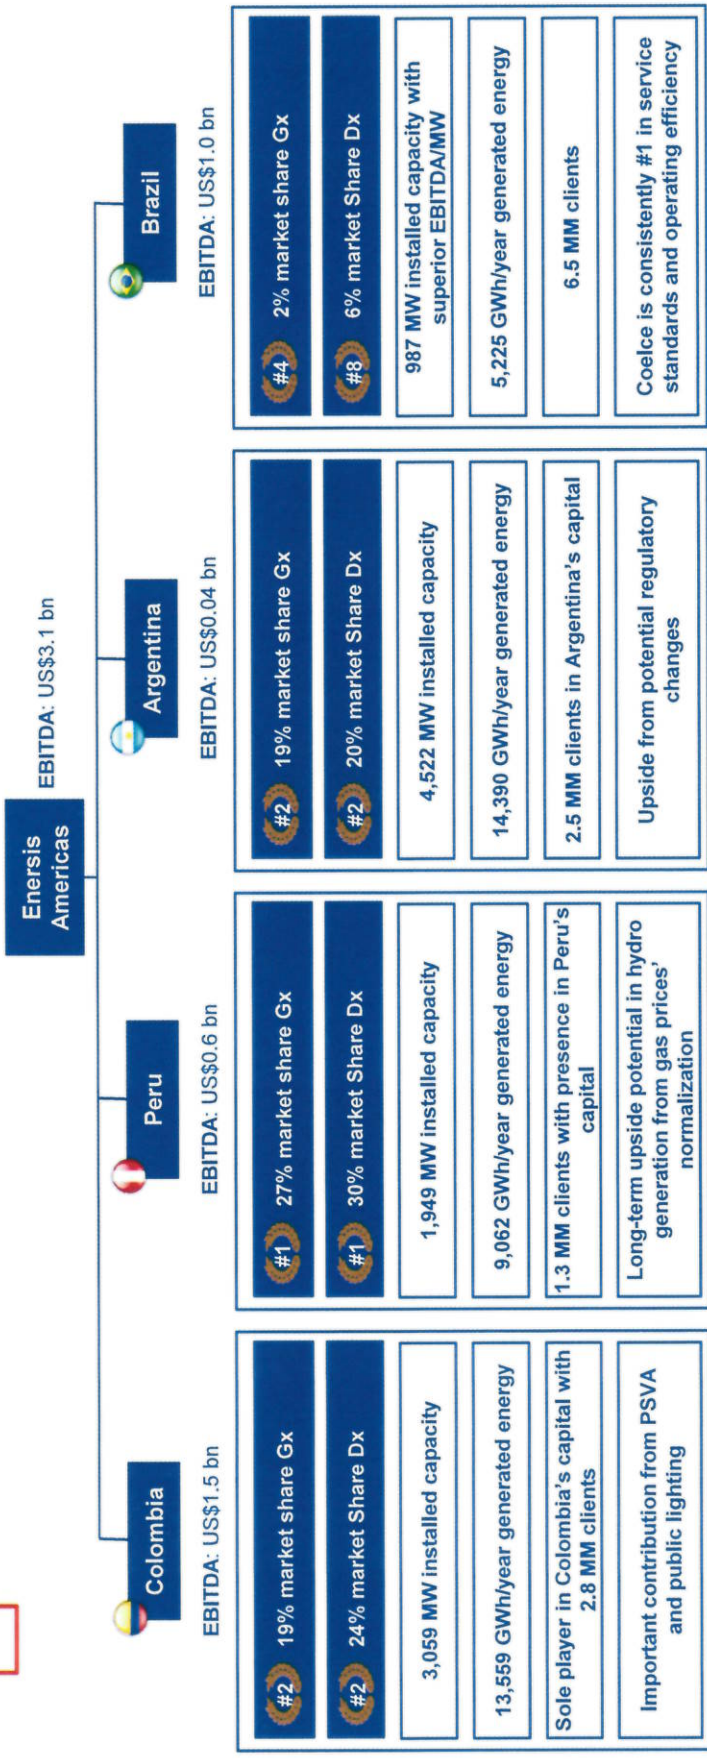

- #1 43% market share – sole distributor player in Santiago (more than double avg. consumption per client vs. rest of country)
- #1 Lowest level of energy losses
- Solid customer base with c. 1.8 mm clients
- One of the lowest cash costs in the industry
- Leader in public lighting
- Potential upside from value-added services

Leakage (Minority interests)

Lack of Visibility (Affiliates not consolidated)

Net income consolidation will increase from 52% to 64%²

Note:
 1. Owns less than 50% but consolidates
 2. Based on projected 2016 net income

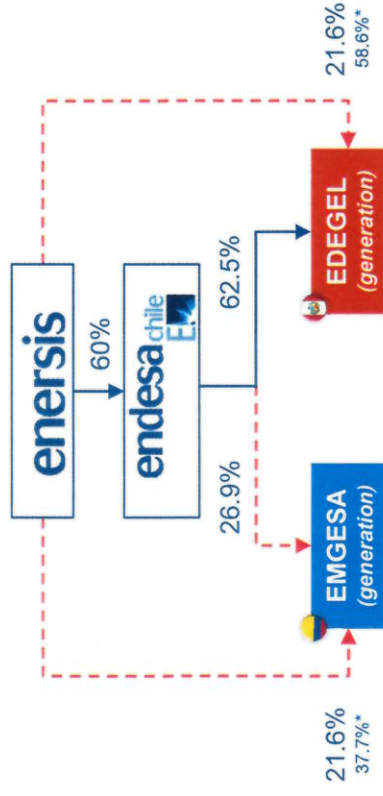

Reorganization highlights and rationale

2 Structure simplification: interest alignment

Emgesa and Edegel example

- Investment in generation in Peru and Colombia through 2 vehicles (e.g. recent acquisition of the 21% stake in Edegel by Enersis)

Post reorganization

- Ownerships stakes combined under one single controlling entity

--- Non-controlling stake

— Controlling stake

* Direct + Indirect ownership stake

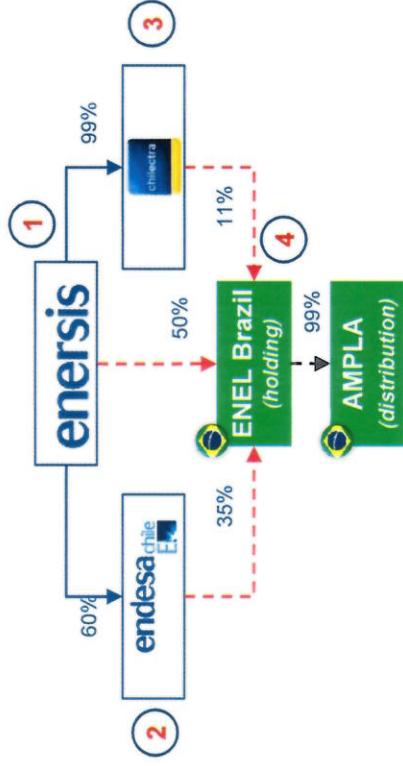

Reorganization highlights and rationale

2 Structure simplification: more effective decision making process

energis

Ampla example

Multiple decision layers resulting in inefficient organization

Post reorganization

Streamlined decision process concentrated in one vehicle

Reorganization highlights and rationale

3 Key strategy pillars: operational efficiencies

| | Actions (2016-2019) | enersis chile US\$ MM | enersis Americas US\$ MM |
|-------------------|--|-----------------------------|--------------------------------|
| OPEX ¹ | Gx: reduce US\$/MW by ~15% ² in Chile and Americas Dx: reduce US\$/client by ~36% ² in Chile and Americas | 90 | 220 |
| SG&A ¹ | Overhead reduction by ~14% ² in Chile and Americas | 10 | 42 |
| Cash pooling | Savings on better cash allocation | - | 15 |
| Tax | Acceleration of utilization of tax credits in Enersis Americas | - | 50 |
| Total | | 100 | 327 |

Note:

1. Comparison 2019 with homogeneous FX 2015
2. Reduction of Chile's and Americas' average

Reorganization highlights and rationale

3 Key strategy pillars: industrial growth – new capex approach

Investments 2016 – 2019 (US\$ bn)

Highlights

- ✓ Optimization of maintenance capex (yearly average -21% vs 2015)
- ✓ Los Condores hydro project (US\$ 500 mm)
- ✓ Investment optionality linked to biddings

- ✓ Optimization of maintenance capex (yearly average -20% vs 2015)
- ✓ Increased quality in distribution
- ✓ Hydro (Brazil)
- ✓ Thermal (Peru)

Reorganization highlights and rationale

3 Key strategy pillars: financial targets

Energis Chile (US\$ Bn)

| | 2016 | 2017 | 2019 | CAGR '16-'19 |
|----------------------|------|------|------|--------------|
| EBITDA | 1.2 | 1.4 | 1.6 | 11% |
| EBITDA Margin | 33% | 38% | 39% | 11% |
| Net Income | 0.5 | 0.6 | 0.7 | 11% |

Energis Americas (US\$ Bn) – post merger

| | 2016 | 2017 | 2019 | CAGR '16-'19 |
|----------------------|------|------|------|--------------|
| EBITDA | 2.4 | 2.8 | 3.3 | 11% |
| EBITDA Margin | 33% | 36% | 37% | 11% |
| Net Income | 0.6 | 0.9 | 1.1 | 22% |

New business plan guidelines are subject to the final execution of the reorganization process

Reorganization highlights and rationale

3 Key strategy pillars: improving shareholders returns

Earnings growth

- ✓ Revenue growth
- ✓ Opex efficiencies
- ✓ SG&A efficiencies
- ✓ Tax optimization

Capital efficiencies

- ✓ Maintenance capex reductions
- ✓ Cash management

Dividend policy

Chile
Base case payout increase gradually from 50% to 70% in 2020

Americas
~ 50% payout

Additional growth coming from optional projects in Chile, M&A and minority acquisition in Americas

Flexibility on usage of excess cash flow
