

2021-2023 Sustainability Plan
IV Coquimbo Region – Municipality of Ovalle – Talinay Plant

SDGs	Activities	Targets 2023	Work Streams	Actions	Projects	Type	KPI	2020	Accumulated 2015_2020
	Sustained, inclusive and sustainable economic growth	447,000 beneficiaries accumulated since 2015	Economic development with local identity and Green Jobs Energy Access, quality, security and efficiency	The aim of this line is to enhance capacities to the communities living around the Talinay plant so that they opt for a better quality of life, by providing them with relevant tools and resources which they will use to develop projects that allow them to improve their social and economic conditions as well as care for local natural capital and its biodiversity. It also seeks to strengthen project management skills (coordination, administration, associativity, among others), that allow communities to develop productive ventures and innovation initiatives.	Talinay Wind Energy Development Fund (1)	CSR	Beneficiaries		2,984
