

2021-2023 Sustainability Plan II Antofagasta Region, Municipality of Mejillones

SDGs	Activities	Targets 2023	Work Streams	Actions	Projects	Type	KPI	2020	Accumulated 2015_2020
	Sustained, inclusive and sustainable economic growth	447,000 beneficiaries accumulated since 2015	DEconomic development with local identity and Green jobs	This line of work seeks to introduce programs organized jointly with local entrepreneurs and groups that would permit them to improve their ventures, providing them with the relevant tools to increase their production and develop sales strategies that fit in with sustainable business models. Projects developed under this line of work include firming up project management capacities (such as coordination, administration, associativity), facilitating the development of sustainable productive entrepreneurship initiatives over time, promoting community partnerships and the use of local resources.
