

2021-2023 Sustainability Plan
II Antofagasta Region, Municipality of Taltal

SDGs	Activities	Targets 2023	Work Streams	Actions	Projects	Type	KPI	2020	Accumulated 2015_2020
 	Inclusive and equitable quality education	268,000 beneficiaries accumulated since 2015	Education for sustainable development	This line of work aims to transfer knowledge and enhance skills in environmental care issues, focusing on each individual local natural and cultural environment. It specifically addresses awareness of the characteristics, functioning and uses of Non-Conventional Renewable Energy sources at domestic and industrial levels, the reuse and recycling of materials focused on circular economy, and awareness of the efficient use of energy. The main objective of this line of work is to promote territorial development that integrates sustainable and low environmental impact solutions to local problems, developing alternatives that contribute to the mitigation of climate change effects.	Recicleta (re-cycle) Paposo	CSR	Beneficiaries	-	-
	Sustained, inclusive and sustainable economic growth	447,000 beneficiaries accumulated since 2015	Economic development with local identity and Green Jobs	This line of work seeks to introduce programs organized jointly with local entrepreneurs and groups that would permit them to improve their ventures, providing them with the relevant tools to increase their production and develop sales strategies that fit in with sustainable business models. Projects developed under this line of work include firming up project management capacities (such as coordination, administration, associativity), facilitating the development of sustainable productive entrepreneurship initiatives over time, promoting community partnerships and the use of local resources.
