

2021-2023 Sustainability Plan
Renewable South Area: Biobío Region – Ralco

SDGs	Activities	Targets 2023	Work Streams	Actions	Projects	Type	KPI	2020	Accumulated 2015_2020	
	Inclusive and equitable quality education	268,000 beneficiaries accumulated since 2015	Education for sustainable development	This line of work allows Enel to contribute to the Access, Equity and Quality of Education goal of children and young people who live in the area of our Company's influence. The projects to be implemented respond to the specific necessities of students such as access and permanence in formal education considering that the average number of years of schooling in the area is 6.5 years, well below the compulsory number of years of education in Chile, whose national average is 11.2 years in the population of 15 years or over. The initiatives to be implemented include transport support, access to technology, culture promotion and scholarships for secondary and higher education. It will also offer support for teachers to incorporate in classroom teaching methodologies, and to include intercultural Pehuenche assistants in the teaching process. This line includes the design of the Quepuca Ralco school as part of resolution No. 133/2006 issued by the environmental authority due to the anticipated filling of the Ralco reservoir. 2021-2023 Sustainability Plan Renewable South Area: Biobio Region – Ralco

SDGs	Activities	Targets 2023	Work Streams	Actions	Projects	Type	KPI	2020	Accumulated 2015_2020
	Sustained, inclusive and sustainable economic growth	447,000 beneficiaries accumulated since 2031	Economic development with local identity and Green jobs	<p>This line will be addressed through the sub-aspects: "Economic Development" and "Cultural Identity". The projects associated with economic development aim to boost the development and autonomy of local communities by consolidating work opportunities, entrepreneurship and labor-related training, variables that materially affect multidimensional poverty. This sub-aspect improves infrastructure and productive equipment and also improves the skills and competencies by offering training projects (courses) in agricultural areas, tourism, among others and provide co-financing for the implementation of ventures. In the Cultural Identity aspect, the projects to be developed will support indigenous communities in the development of cultural initiatives whose purpose is to promote, consolidate and support cultural practices such as traditional ceremonies, language conservation, dissemination of culture and others. this line of work seeks to consolidate, mitigating the social impacts of operations in the indigenous territory and providing communities with identity tools that can be part of entrepreneurship to be developed in the sector, helping to reduce multidimensional poverty gaps associated with the support and participation in cultural identity organizations and the empowerment of indigenous communities. It will be the communities, together with Enel, who will define the specific project lines for 2021.</p>	Operativo Veterinario - Ayin Mapu community, PLP.	CSR	Beneficiaries	54	174

	Ensure healthy lives and promote well-being for all at all ages			Housing, services and environment	<p>This line of work addresses the issues of housing and services and the surroundings. The housing aspect is implemented via an agreement between the Company and the Municipality of Alto Biobío which addresses the multidimensional poverty associated with local population's habitability necessities and demands.</p> <p>The Services and surroundings aspect seeks to reduce emergency risks and teach the community how to manage risks and offer healthcare to the inhabitants of the area. The projects seek to address emergencies in vulnerable groups by developing skills and providing community training as a strategy that allows them to respond to volcano eruption emergencies and forest fires. Furthermore, it includes programs that address direct impacts of events of natural or anthropic origin.</p>	Collaborating with the emergency plan - Alto Biobío Municipality Agreement	CSR	Beneficiaries	1,500
